Water for Kids

STUCK FOR A BIRTHDAY OR CHRISTMAS PRESENT?
We might just have the solution

£20 will buy a Washstand - providing the facility for children and their families to wash their hands and help prevent disease!

As everyone knows, whilst it is important to install safe drinking water in areas for the first time, it is also important to wash your hands. Water for Kids are building on the success of its new water supplies in Zambia and Uganda and are aiming to supply villagers with washstands for effective hand washing
